

Please join us for a half-day meeting of the Bay Bunch user group hosted by Velocity Software, Jeskell and IBM. The Bay Bunch is a regional group consisting of zSeries and Linux enthusiasts. This is a free meeting. If you are interested in issues relating to zSeries and zLinux, you won't want to miss these informative sessions!

When: Wednesday, June 28, 2006 **Registration:** Register by June 26, 2006
Where: Jeskell Registration Form on Page 2
155-A Moffett Park Drive Email: melissa@velocitysoftware.com, or
Sunnyvale, CA 94089 Fax: 650-964-9012
There is no charge for this meeting and lunch is included!

Agenda

8:30am **Coffee and pastries sponsored by Velocity Software**

9:00am **z9 Update**
By Jose Carrasco, Jeskell, Inc.

On April 27th 2006 IBM announced the latest addition of mainframe processors for the System Z family. With a mips spectrum from 26 to over 3000 this announcement targets every installation and customer with any predecessor machine. From zIIP's to zAAP's, Hipersockets to HMC/SCP consoles we'll review what hardware is new and what has changed. Got the latest code? Software currency is a must have or it won't even IPL.

10:00am **Consolidating Oracle Databases to Linux on System z**
By Denny Dutcavich, IBM

Denny has provided technical sales support for Oracle products and solutions on the mainframe since 1997. This presentation will briefly cover virtualization on System z as it applies to Linux as well as a short history of the growth of Linux on System z. The main content of the presentation will cover the Oracle products available today for Linux on System z, what can be expected for the remainder of this year, what other customers are doing and why and what the next steps might be if you are considering server consolidation.

11:00am **Break**

11:15am **Suse Linux Enterprise 10**
By Tony Kubinski, Linux Specialist, Novell, Inc.

Discover how SUSE Linux Enterprise Server 10, the most secure, reliable and flexible server available, reduces server sprawl with built-in virtualization, high availability storage foundation and powerful security capabilities. Learn how the cost-effective SUSE Linux Enterprise Desktop helps you break free from single vendor lock-in with seamless interoperability, market-leading usability, and more access to the productivity applications that keep your people productive and profitable.

12:30pm **Raffle**
To encourage and reward those who fill out the evaluations and attend the entire meeting, we will be having a drawing at the end of the day for fun prizes! You must be present to win.

12:45pm **Lunch**
Lunch is sponsored by IBM Premier Business Partner Jeskell.

Directions to 155-A Moffett Park Drive: Building is on the corner of Moffett Park Drive and Bordeaux. There will be signs up in the building directing people to the BPIC Seminar room. <http://www.mapquest.com/>
